PROFILE

I'm a Frontend Developer with 2 years of experience building clean, responsive, and user-friendly web applications. I'm always up for a challenge and love learning new things, whether it's frameworks or tools. I take pride in being committed and responsible for my work, and I'm passionate about creating systems that truly make people's lives better. I hope my experience can bring something valuable to your team.

EDUCATION

King Mongkut's Institute of Technology Ladkrabang

2018 - 2022

- **Bachelor of science** Major in Applied Mathematics

EXPERIENCES

Frontend Developer at Codium

Jul 2022 - Present

- **Responsibilities:**
 - Created UI using Angular, Typescript and Bootstrap.
 - Designed and implemented UX/UI and responsive layouts.
 - Worked closely with backend developers to integrate APIs.
- **Projects:**
 - **Credit Information Recording** for Thailand's sole credit information provider.
 - **e-Memo:** Designed and implemented custom forms and workflows tailored to client needs, enhancing internal communications and line of approval processes.
 - **e-Budget:** I had the opportunity to be 80% involved in building the UI for the newly developed prototype e-Budget System, which is a large-scale product for managing internal budgeting in organizations.

Web Development Bootcamp at Skooldio

August - November 2024

- **Projects: e-Commerce Website**
 - Built e-Commerce website using React, Javascript and Tailwind.
 - Designed and implemented UX/UI and responsive layouts.
 - I had the chance to lead this project and take charge of building the website's core structure.
